Will vary depending on geographic area and regional feeding requirements

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

This product contains high levels of copper. Consumption of this product by sheep or goats may result in copper toxicity.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FEEDING AND MANAGEMENT INSTRUCTIONS

When used as directed, ALTOSID 0.005% Cattle Tub/Block will provide sufficient (S)-methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free choice to cattle. Cattle should consume an average of 0.8 ounces of ALTOSID 0.005% Cattle Tub/Block per 100 lbs. of animal body weight per day, which is equivalent to 8 ounces per day for a 1,000 pound animal.

To Open: Remove top cardboard and protective sheet.

Assure cattle are not starved for nutrients prior to feeding ALTOSID 0.005% Cattle Tub/Block.

Offer cattle 1 ALTOSID 0.005% Cattle Tub/Block for every 15 to 25 head of cattle.

Remove all other self limiting nutritional supplements.

Locate ALTOSID 0.005% Cattle Tub/Block where cattle congregate (watering, loafing, shade areas).

Replenish ALTOSID 0.005% Cattle Tub/Block on a regular basis as needed.

If intake of ALTOSID 0.005% Cattle Tub/Block is below 0.8 ounces per 100 pounds animal body weight per day, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle.

If intake of ALTOSID 0.005% Cattle Tub/Block is above 0.8 ounces per 100 pounds animal body weight per day, [reverse the above procedure] reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.

Introduction of this product after adult horn fly infestation is established will require treatment of cattle with adulticides if elimination of the adult fly population is desired.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE

Store in a cool, dry place.

DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities by burning. If burned, stay out of smoke. [Return empty tubs to (company) for cleaning and recycling.]
